SUBJECT: SESSION SUMMARY (C/SS)

SG1J TO: DT-S (ATTN: [REDACTED])

1. (S-SS) Statistics: Viewer: 018
Session date: 10 AUG 88
Start time: 1352
End time: 1439
Mode of operation: SOLO
PI: None
AV: Higgins
2. (S-SS) Cuing: Target is a person.
3. (S-SS) Tasking: Access the target person and describe:
 - a. Target's personality (see 4.a., below).
 - b. Target's educational background (see 4.b., below).
 - c. Target's nationality (see 4.c., below).
 - d. Target's principal and noteworthy activities (see 4.d, below).
 - e. Target's accomplishments (see 4.e., below).
 - f. Principal personalities surrounding target (see 4.f., below).
4. (S-SS) Results:
 - a. Personality: No results (see Comments, below).
 - b. Education: Allegorical visual presented a picture of an erratic education, yet one which rises above those surrounding it (see sketch, page 4).
 - c. Nationality: Repeated impressions of "foreign" and "non-American".
 - d. Activities: Impressions of political compromises, and of target passing through a corridor in which many people are standing, watching him pass.

- e. Accomplishments: The only impression for this was that of a hot, glowing (AOL: piece of metal) being formed by the motion of two large "things" squeezing together on it. This may also be allegorical.
- f. Associated personalities: No results (see Comments, below).

4. (S-SS) Comments: This was a very bad session, for no explainable reason. I felt as though I were constantly "bouncing around" the target, never "getting on target". The few times I did get on target, I would immediately be overcome by drowsiness, to the point of almost falling out of the chair. Fighting the target and session finally wound up in my calling the session for Personal Inclemency reasons, without completely addressing all the tasked items. The struggle was actually causing physical pain, and I left the session with a splitting headache.
